March 1, 2019

Dear Dental Family and Friends of Dr. Glenn Blincoe and Dr. David Shutt,

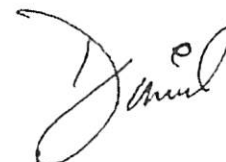

After nearly 40 years of providing dental care for the best possible family of patients, we want to announce Dr. Blincoe's transition to Dental Sleep Medicine. There has been much speculation lately and questions as to when Dr. Blincoe might "slow down" or even retire. We are happy to say that he is NOT retiring. Dr. Blincoe's passion for dentistry and patient care will continue. However, effective March 13, 2019, following a "phasing out" period by Dr. Blincoe to complete scheduled cases, Dr. David Shutt will be assuming all of the practice's dental treatment responsibilities. This will include all dental hygiene visit exams, emergencies and any and all future dental care. Dr. Blincoe will be limiting his practice to the field of Dental Sleep Medicine. Together, we anticipate a smooth and seamless transition ensuring a continuation of the best possible patient care as has been the case for the last 29 years of a strong partnership.

We and our dedicated staff are excited about this new aspect of our dental practice. You may have already seen the signs posted in our office regarding snoring and obstructive sleep apnea. Dr. Blincoe was diagnosed with obstructive sleep apnea nearly 4 years ago which launched a personal and educational journey that lead him, with the help of a sleep physician specialist, to successfully treat this condition with a dental device. His personal positive experience motivated him and the staff to achieve unique and expansive requirements for Medicare certification. Blincoe and Shutt, PSC is now one of only a handful of dental practices in the state of Kentucky certified as a Medicare Durable Medical Equipment (DME) provider for dental devices to treat Obstructive Sleep Apnea. As a member of the American Academy of Dental Sleep Medicine and the Kentucky Sleep Society, Dr. Blincoe will continue to build productive and long-term relationships with Louisville's various sleep centers and top sleep physicians.

We thank you for the absolute privilege of allowing us to provide your dental care needs and those of your family these past 39 years. Drs Blincoe and Shutt and our amazing staff will continue to serve our dental family in the same "patient comes first" tradition started by Dr. William P. Blincoe 66 years ago. This commitment and expertise allowed both Dr. Blincoe and Dr. Shutt the recognition in Louisville Magazine's TOP DOCTORS in 2011, 2016 and 2018 as Louisville's TOP dentists as voted by their peers (the only years this recognition has been given). Strong personal relationships with patients will continue as has always been the case in the past. If you have any questions please feel free to call as our top priority is always the best care of those that are entrusted to this practice.

Glenn R. Blincoe, D.M.D.

David L. Shutt, D.M.D.
